New York, New York

DESCRIPTION

This conference will feature case-based interactive presentations with clinical pearls and panel discussions. A hands-on experience with latest diagnostic and therapeutic tools for ocular surface disease will be provided during a comprehensive wet-lab.

Topics will include:

- Allergy
- Ocular surface in preparations for cataract surgery
- Blepharitis
- Systemic diseases associated with dry eye.
- And more!

TARGET AUDIENCE

This activity is intended for comprehensive eye care providers and cornea specialists in Ophthalmology and Optometry.
