JOHNS HOPKINS
MEDICINE

DESCRIPTION

This one day course will address common pediatric musculoskeletal conditions and will provide a forum to discuss office management and referral criteria in order to enhance the care of pediatric patients locally. Small group educational sessions will be offered to address the educational need of the target audience.

WHO SHOULD ATTEND

This activity is intended for pediatricians, family practitioners, orthopaedic surgeons, nurse practitioners, physician assistants, physical therapists, nurses, certified medical assistants, orthopaedic fellows and residents.

OBJECTIVES

After attending this activity, the participant will demonstrate the ability to:

- Display an ability to identify key developmental changes of the foot and ankle as a child grows.
- Identify three effects of obesity on the growing skeleton.
- Identify the primary causes of leg length discrepancy.
- Identify how to recognize a muscle disorder in the developing child.
- Discuss the treatment of a femur fracture in a child.

ACKNOWLEDGMENT

Applications for commercial support from health care related industries are pending. A complete list of contributors will be provided in the syllabus. Please note that commercial support received is solely for the educational component of the activity and will not be used to provide food and beverage.

Please note: The Physician Payments Sunshine Act was enacted by Congress to increase public awareness of financial relationships between drug and medical device manufacturers and physicians. In compliance with the requirements of this Act, the commercial supporter/s of this activity may require the Johns Hopkins University School of Medicine to report certain professional information (such as name, address, National Provider Identifier (NPI), and State License number) of physician attendees who receive complimentary food and beverage in conjunction with a CME activity. The commercial supporter is required to submit the collected data to the Centers for Medicare and Medicaid Services which will then publish the data on its website.
