Activity Director

Amir H. Hamrahian, MD

Associate Professor of Medicine
Johns Hopkins School of Medicine

Description

This one-day program will place a heavy emphasis on case discussions to review the best strategies for evaluation and management of adrenal disorders by experts in the field.

Target Audience

This activity is intended for endocrinologists, endocrine surgeons, nurses and nurse practitioners, physician assistants, as well as internists and family practitioners with interest in endocrine/adrenal disorder.

Objectives

After attending this activity, the learner will demonstrate the ability to:

- Discuss the best practices for evaluation and diagnosis of different adrenal disorders.
- Review common pitfalls in biochemical evaluation of patients with adrenal disorders.
- Discuss the best strategies for medical and surgical management of patients with adrenal disorders.

Topics

- Adrenocortical Carcinoma
- Surgical Management of Adrenocortical Carcinoma
- Primary Aldosteronism
- Adrenal Imaging
- Adrenal Insufficiency
- Surgical Management of Adrenal Disease
- Pheochromocytoma
- Adrenal Venous Sampling
- Congenital Adrenal Hyperplasia
- Cushing Syndrome
- Adrenal Incidentalomas
