# Cancer Survivorship: Improving Outcomes and Promoting Patient-Centered Care

April 28, 2017

**Chevy Chase Conference Center  
The Johns Hopkins Hospital  
Baltimore, Maryland**

This activity has been approved for  
AMA PRA Category 1 Credits™.

## DESCRIPTION

Driven by the aging of the U.S. population, earlier detection, and improved treatment modalities, the number of cancer survivors is expected to sharply rise. There are currently 15 million cancer survivors alive in the U.S. today. While many cancer patients will survive their disease well beyond the initial diagnosis and treatment, their medical and psychosocial needs post-treatment are often inadequately handled.

Care for cancer survivors requires multidisciplinary support. There are often many providers involved in the management of a cancer patient after acute treatment. Finding creative ways for these individuals to work together is of critical importance to ensure cancer survivors have access to necessary health and wellness opportunities and potentially improve outcomes. *The Johns Hopkins Cancer Survivorship: Improving Outcomes and Promoting Patient-Centered Care* symposium is designed to provide health care practitioners a comprehensive overview of the medical and psychosocial aspects of cancer survivorship care, including approaches to clinical management.

## WHO SHOULD ATTEND

This activity is intended for oncologists, primary care providers, nurses, nurse practitioners, health administrators, patient advocates, navigators and allied health professionals.

## OBJECTIVES

After attending this activity, the participant will demonstrate the ability to:

- Recognize the critical components of cancer survivorship care.
- Outline the multidisciplinary providers involved in the care delivery.
- Identify the medical and psychosocial effects of cancer and its treatments.
- Address how cancer survivorship needs differ based on treatments.
- Describe quality care and evidence-based measures for the management of cancer survivors.
- Explain barriers to survivorship care.

## ACCREDITATION STATEMENT

The Johns Hopkins University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.
