Third Annual Update on

# ADVANCES IN ENDOSCOPY, GASTROENTEROLOGY AND HEPATOLOGY

**FEBRUARY 18, 2017** 

The Ritz Carlton
Tysons Corner, Virginia

### DESCRIPTION

This one-day activity will provide an update on a wide range of topics of interest to the practicing gastroenterologist, surgeon, family physician internist. Rapid advances are being made in the understanding of the pathophysiology, natural history and treatment of diseases of the digestive tract and liver. This course will offer practitioners a comprehensive overview of recent, cutting-edge advancements in gastroenterology and hepatology. A special emphasis will be on emerging therapies and concepts that will inform our practice in the future. Particular areas of focus will be advanced endoscopic techniques, Gl neoplasms, pancreatico-biliary pathology, liver diseases, hepatobiliary malignancies and liver transplantation.

This year, we are happy to offer a simultaneous afternoon program for endoscopy nurses and technicians led by the therapeutic endoscopy staff at Sibley Memorial Hospital. This session will allow endoscopy nurses and technicians the opportunity for hands on exposure and practice on various accessories and devices used in therapeutic endoscopy including (and not limited to) clips, snares, FNA needles, biliary and pancreatic stents and luminal stents.

If you are interested in participating in this new session, please check the box on the registration form. **Attendance is limited.** There is no additional cost to your registration.

### WHO SHOULD ATTEND

This activity is intended for gastroenterologists, general surgeons, family physicians, internists, endoscopy nurses, technicians and physicians interested in GI/Liver diseases.

### **OBJECTIVES**

After attending this activity, the participant will demonstrate the ability to:

- Develop an evidence-based approach to the management of pancreatic cysts and pancreatic cancer.
- Describe your understanding of endoscopic imaging techniques and apply the principles underlying the endoscopic management of challenging colonic polyps / esophageal strictures.
- Discuss the performance and significance of motility studies esophageal as well as biliary.
- Explain an updated understanding of current advances in the treatment of chronic hepatitis C.
- Summarize current paradigms in the pathogenesis and management of nonalcoholic fatty liver disease.
- Identify the challenges in the and optimal management of liver masses.
