MEDICINE

# The Wilmer Eye Institute's 29th Annual Current Concepts in Ophthalmology

## DESCRIPTION

Using a combination of didactic lectures and discussions, faculty members and invited speakers will present advances in diagnosis and treatment of cataract, glaucoma, refractive surgery (LASIK and PRK), and macular diseases, including new information on current trials and alternative concepts for dry, as well as wet, age-related macular degeneration. New vitreo-retinal surgical instrumentation and applications will be discussed. Presentations will be made on new imaging concepts, including optical coherence tomography systems.

## WHO SHOULD ATTEND

This activity is intended for ophthalmologists, optometrists, and ophthalmic allied health professionals.

## OBJECTIVES

After attending this activity, the participant will demonstrate the ability to:

- Integrate prescribed medical and surgical treatment options into everyday practice.
- Assess the perioperative use of antibiotic and anti-inflammatory agents in patients undergoing eye surgery.
- Examine external legislative and internal practice issues impacting the field of ophthalmology.
- Formulate current and advanced treatment strategies with corresponding ocular conditions, including: glaucoma, retina, anterior segment, refractive surgery and laser assisted cataract and corneal transplant surgery.
- Discuss new medical techniques, therapies and relevant clinical trials.
- Evaluate emerging literature on the efficacy, safety, and cost-effectiveness of femtosecond-assisted laser cataract surgery.
- Summarize the latest developments for the management of anterior segment problems.
- Assess the latest developments for the management of pediatric ophthalmology and strabismus conditions.
- Describe unique considerations for cataract surgery in patients with comorbid glaucoma.

## ACCREDITATION STATEMENT

## GENERAL INFORMATION

### EVALUATION AND OUTCOMES SURVEY

Post activity, an online evaluation form will be available to attendees to evaluate the activity and individual presentations and identify future educational needs. Upon completion of the evaluation, the learner must attest to the number of hours in attendance. Credits earned will be added to the learner's transcript and immediately available for print.

A survey will be sent to all physician attendees within three months post activity to assist us in determining what impact this activity had on the learner's practice.

### EMERGENCY CALLS

On December 1-3, 2016, direct emergency calls to the Hopkins registration desk, (410) 955-3673. Messages will be posted for participants.

### AMERICANS WITH DISABILITIES ACT

The Johns Hopkins University School of Medicine fully complies with the legal requirements of the ADA and the rules and regulations thereof. Please notify us if you have any special needs.

### ACKNOWLEDGEMENT

Applications for commercial support from health care related industries are pending. A complete list of contributors will be provided in the syllabus. Please note that commercial support received is solely for the educational component of the activity and will not be used to provide food and beverage.

*Please note: The Physician Payments Sunshine Act was enacted by Congress to increase public awareness of financial relationships between drug and medical device manufacturers and physicians. In compliance with the requirements of this Act, the commercial supporter/s of this activity may require the Johns Hopkins University School of Medicine to report certain professional information (such as name, address, National Provider Identifier (NPI), and State License number) of physician attendees who receive complimentary food and beverage in conjunction with a CME activity. The commercial supporter is required to submit the collected data to the Centers for Medicare and Medicaid Services which will then publish the data on its website.*
