Description

We continue to see great advances in the diagnosis and treatment of gastrointestinal and liver disease. Therapy continues to evolve in multiple directions. There are constantly new medications being approved for chronic hepatitis C and inflammatory bowel disease in addition to new consensus and position statements on these topics. The line is also blurring between the traditional realms of endoscopy and surgery. We are now seeing novel endoscopic approaches to the complications of Barrett's esophagus as well as endoscopic based bariatric surgery. To maintain their practices, gastroenterologists and surgeons need to stay up to date on a wide range of topics including diagnosis of autoimmune pancreatitis, understanding immunosuppression management in the post-liver transplant patient, delineating the role for surgical versus endoscopic approaches to gastric cancer, and treating the pregnant patient with elevated liver function tests, yet formal education in these areas is limited. It is difficult for practicing physicians and surgeons to stay abreast of these new advances. [The 35th Annual Medical and Surgical Gastroenterology Conference](#) will provide a learning opportunity for participants in various GI disorders including endoscopic/surgical approaches to pancreaticobiliary disease and esophageal/gastric disease, assessment of liver disease, and inflammatory bowel disease management. This year we will have a special session dedicated management of GI conditions in the pregnant patient. Also new this year, we have several pro-con debates on controversial GI dilemmas. The course is endorsed by the International Association of Surgeons, Gastroenterologists and Oncologists (IASCO), and we have six national and international leaders in the field of esophageal, gastric, colon and hepatobiliary cancer speaking at the meeting. We will continue to have a full day of interactive case presentations and attendees have the opportunity to earn maintenance of certification (MOC) points. Finally, we are happy to offer complimentary breakfast for all attendees.

Who Should Attend

This activity is intended for gastroenterologists, surgeons, internists, family practitioners, physician assistants, nurse practitioners, nurses and other allied health professionals.

Objectives

After attending this activity, the participant will demonstrate the ability to:

- Identify and scrutinize the best approach to the management of hepatobiliary disorders.
- Describe updates and paradigm changes in the treatment of various liver diseases.
- Outline the medical and surgical approaches to esophageal and gastric disease.
- Identify and utilize the latest therapeutic modalities to the management of inflammatory bowel disease.
- Analyze and review the various GI conditions that may affect a pregnant patient.
- Assess the various options for bariatric surgery and delineate diagnosis algorithms for GI bleeding.

ACCREDITATION STATEMENT

The Johns Hopkins University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

This activity provides self-assessment credits toward Part 2 of the **American Board of Surgery Maintenance of Certification (MOC) Program**.

American Nurses Credentialing Center (ANCC) accepts AMA PRA Category 1 Credit™ from organizations accredited by the ACCME.

American Academy of Nurse Practitioners National Certification Program accepts AMA PRA Category 1 Credit™ from organizations accredited by the ACCME.

American Academy of Physician Assistants (AAPA) accepts certificates of participation for educational activities certified for AMA PRA Category 1 Credit™ from organizations accredited by ACCME. Physician assistants may receive a maximum of 25.0 AAPA Category I CME credits for completing this program.

CREDIT DESIGNATION STATEMENT

The Johns Hopkins University School of Medicine designates this Live activity for a maximum of 25.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

OTHER CREDIT(S)

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 25.0 MOC points in the **American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program**. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. The provider must include a comprehensive evaluation component that measures learner change. It is the CME activity provider's responsibility to submit participant completion information to ACCME's Program and Activity Reporting System (PARS) for the purpose of granting ABIM MOC credit.

POLICY ON SPEAKER AND PROVIDER DISCLOSURE

It is the policy of the Johns Hopkins University School of Medicine that the speaker and provider globally disclose conflicts of interest. The Johns Hopkins University School of Medicine OCME has established policies in place that will identify and resolve all conflicts of interest prior to this educational activity. Detailed disclosure will be made in the instructional materials.

ACKNOWLEDGEMENT

Applications for commercial support from health care related industries are pending. A complete list of contributors will be provided in the syllabus. Please note that commercial support received is solely for the educational component of the activity and will not be used to provide food and beverage.

Please note: The Physician Payments Sunshine Act was enacted by Congress to increase public awareness of financial relationships between drug and medical device manufacturers and physicians. In compliance with the requirements of this Act, the commercial supporters of this activity may require the Johns Hopkins University School of Medicine to report certain professional information (such as name, address, National Provider Identifier (NPI), and State License number) of physician attendees who receive complimentary food and beverage in conjunction with a CME activity. The commercial supporter is required to submit the collected data to the Centers for Medicare and Medicaid Services which will then publish the data on its website.
