

Architecture of High Value Health Care

September 21-23, 2018

Baltimore Convention Center

This activity has been approved for AMA PRA Category 1 Credits™ and ABIM MOC Credit.

DESCRIPTION

Research and education are integral to the transition to high value care. Outcomes research must ensure that cost-conscious care improves value without sacrificing quality or safety.

Changing long-standing provider practice patterns is challenging, underscoring the importance of delineating interventions that most effectively influence prescribing and ordering behavior.

Academic medical centers from across the United States and Canada will come together to celebrate high value care and describe quality improvement projects that have safely reduced low value practice through oral presentations and posters. The program will also include presentations from renowned faculty leaders in high value care. Additionally, presentations will focus on innovative curricula developed by academic medical centers for undergraduate and graduate medical education to instill high value practice in future generation of physicians.

WHO SHOULD ATTEND

This activity is intended for physician and non-physician medical providers in all specialties, including faculty, house staff, medical students, nurse practitioners, nurses, physician assistants.

OBJECTIVES

After attending this activity, the participant will demonstrate the ability to:

- Identify unnecessary tests, procedures and treatments to target for reduced utilization
- Appraise the most effective methods for impacting provider ordering and prescribing behavior (education, clinical decision support and provider feedback).
- Assess the safety outcomes of value-based improvement to ensure that these initiatives do not compromise diagnostic and therapeutic efficacy.

ACCREDITATION STATEMENT

The Johns Hopkins University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

CREDIT DESIGNATION STATEMENT

The Johns Hopkins University School of Medicine designates this live activity for a maximum of 21.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

MOC STATEMENT

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 21.75 points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME's Program and Activity Reporting System (PARS) for the purpose of granting ABIM MOC credit.

POLICY ON SPEAKER AND PROVIDER DISCLOSURE

It is the policy of the Johns Hopkins University School of Medicine that the speaker and provider globally disclose conflicts of interest. The Johns Hopkins University School of Medicine Office of Continuing Medical Education has established policies that will identify and resolve all conflicts of interest prior to this educational activity. Detailed disclosure will be made in the instructional materials.

- - - CORE VALUES - - -

INNOVATION: Medical providers have a responsibility to create a new model for health care delivery, one that eliminates unnecessary practice to improve health care quality and decrease the financial burden for our patients.

COLLABORATION: Cross-institutional collaboration on value improvement initiatives is essential to efficiently and effectively improve health care value on a national scale.

INVESTIGATION: Academic medical centers must systematically analyze the outcomes of initiatives that reduce low value practice, to ensure that quality and safety are either maintained or improved.

EDUCATION: Engaging medical students, resident physicians and fellows in this work will yield lasting improvements in practice.
