MEDICAL & SURGICAL GASTROENTEROLOGY

A MULTIDISCIPLINARY APPROACH

JANUARY 26 – 30, 2020

Grand Hyatt Vail
Vail, Colorado

JOHNS HOPKINS
MEDICINE

DESCRIPTION

We continue to see great advances in the diagnosis and treatment of gastrointestinal and liver disease. Therapy continues to evolve in multiple directions. Topics including inflammatory bowel disease, hepatitis C, among others, see approvals of multiple important new medications every year. The line between the traditional realms of endoscopy and surgery also continues to blur and it is critical for both gastroenterologists and surgeons to explore these boundaries – this includes topics like the endoscopic approaches to treating Barrett's esophagus, and biliary disease, which in the past were relegated to a surgical approach, all of which will be covered in this course.

To maintain their practices, gastroenterologists, surgeons and advanced practitioners need to stay up to date on a wide range of topics, including diagnosis of autoimmune hepatitis, understanding medical and surgical treatment strategies to chronic pancreatitis, managing colorectal cancer metastatic to the liver, and evaluating the side effect profiles of different biologic agents used in the management of inflammatory bowel disease. It is difficult for practicing physicians and surgeons to stay abreast of these new advances. The 37th Annual Medical and Surgical Gastroenterology conference will provide a learning opportunity for participants in various GI disorders including the approach to the patient with suspected hereditary colon cancer, the decision making behind operating for arcuate ligament syndrome, and advances in robotic surgery for gastrointestinal disease. This year we are also returning back to basics, blending in an overview of management of hernias, acute cholecystitis and appendicitis, IBD for the non-IBDologist, and fatty liver disease. We will also continue to have a full day of interactive case presentations and attendees have the opportunity to earn maintenance of certification (MOC) points.

WHO SHOULD ATTEND

This activity is intended for gastroenterologists, surgeons, internists, family practitioners, physician assistants, nurse practitioners, nurses and other allied health professionals.

OBJECTIVES

After attending this activity, the participant will demonstrate the ability to:

- Identify and scrutinize the best approach to the management of pancreatic cancer.
- Identify how best to treat patients with acute appendicitis and acute cholecystitis.
- Outline the long term risks of proton pump inhibitors (PPI).
- Describe updates to the surgical management of GI Stromal Tumors (GIST).
- Analyze the standard of care for patients with suspected small intestinal bacterial growth (SIBO).
- Assess the treatment approach to the patient with Irritable Bowel Disorder (IBD).

ACCREDITATION STATEMENT

The Johns Hopkins University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

This activity meets the requirements for CME and self-assessment credit toward Part 2 of the **ABS MOC Program**.

American Academy of Nurse Practitioners National Certification Program accepts *AMA PRA Category 1 Credit™* from organizations accredited by the ACCME.

American Nurses Credentialing Center (ANCC) accepts *AMA PRA Category 1 Credit™* from organizations accredited by the ACCME

PAs may claim a maximum of 25.25 Category I credits for completing this activity. **NCCPA** accepts *AMA PRA Category 1 Credit™* from organizations accredited by ACCME or a recognized state medical society.

CREDIT DESIGNATION STATEMENT

The Johns Hopkins University School of Medicine designates this Live activity for a maximum of 25.25 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

OTHER CREDITS

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 25.25 Medical Knowledge MOC points in the **American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program**. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

POLICY ON PRESENTER AND PROVIDER DISCLOSURE

It is the policy of the Johns Hopkins School of Medicine that the presenter and provider globally disclose conflicts of interest. The Johns Hopkins School of Medicine OCME has established policies in place that will identify and resolve all conflicts of interest prior to this educational activity. Detailed disclosure will be made prior to presentation of the education.

ACKNOWLEDGEMENT

Applications for commercial support from health care related industries are pending. A complete list of contributors will be provided in the syllabus. Please note that commercial support received is solely for the educational component of the activity and will not be used to provide food and beverage.

Please note: The Physician Payments Sunshine Act was enacted by Congress to increase public awareness of financial relationships between drug and medical device manufacturers and physicians. In compliance with the requirements of this Act, the commercial supporter/s of this activity may require the Johns Hopkins School of Medicine to report certain professional information (such as name, address, National Provider Identifier (NPI), and State License number) of physician attendees who receive complimentary food and beverage in conjunction with a CME activity. The commercial supporter is required to submit the collected data to the Centers for Medicare and Medicaid Services which will then publish the data on its website.
