Proton Therapy Course

A Virtual Learning Experience

October 9, 2020 | 12:00 p.m. – 5:00 p.m.

DESCRIPTION

Proton therapy is the most technologically advanced method to delivery radiation treatments to cancerous tumors available today. The unique characteristics of how protons interact within the human body allow it to deliver curative radiation doses while reducing doses to healthy tissues and organs resulting in potentially fewer complications and side effects than standard radiation therapy. Understanding how proton therapy works provides patients and physicians with insight into the clinical advantages of this treatment modality and the appropriate indications. In this course, practitioners will learn the fundamentals of proton therapy and review the available clinical evidence and promising indications. Understanding the appropriate utilization of this precise technology will allow for implementation of the highest quality care.

This activity has been approved for AMA PRA Category I Credits™.

Proton Therapy Course

A Virtual Learning Experience

October 9, 2020 | 12:00 p.m. – 5:00 p.m.

WHO SHOULD ATTEND

This activity is for physicians including primary care physicians, oncologists, surgeons, diagnostic physicians, and radiation oncologists.

TOPICS INCLUDE:

- The Proton Potential: Historical vs. Modern Perspective
- The Greatest Gain: Pediatric Tumors and Toxicity Minimization
- Plenary: Lessons from Proton Re-irradiation
- Breast Cancer: Indications and Advantages
- Biology of Proton Effects
- Lung Cancer: Contemporary Treatments with Immunotherapy and Proton Therapy

METHODS OF PAYMENT

We require full payment prior to the start of the activity.

Physicians Live Stream.....\$30

Registration will open soon for the enduring materials activity. For further information visit hopkinscme.cloud-cme.com/default.aspx?P=5&EID=30581.

Full-Time Johns Hopkins Faculty and Staff may be eligible for tuition remission to attend this course. Please visit the Hopkins Benefits website - benefits.jhu.edu for information and requirements.
