Hybrid (Virtual and In-person) Conference

## Highlights

- Comprehensive **1-day hybrid course** (virtual with an option of in-person attendance) dedicated to providing practicing gastroenterologists, endoscopists and endoscopy staff state-of-the-art updates on luminal and pancreatico-biliary diseases and endoscopy.
- Full-day of **Live Endoscopy** from Johns Hopkins and other centers of excellence with **Live Spanish Translation**
- **Free registration** for world-wide audience for virtual program
- **Renowned faculty** from around the world
- Demonstrations of the **latest breakthroughs** in endoscopic procedures, equipment and accessories.
- Combination of live endoscopy, short didactic presentations, **interactive discussions**, and interactive video case presentations
- An audience response system will allow for dynamic and interactive sessions
- Collaboration with **American Society for Gastrointestinal Endoscopy (ASGE) Endo Live** during a **colonoscopy symposium** on Thursday September 1, 2022 featuring didactics and live demonstration of basic and advanced colonoscopy and polypectomy techniques
- Hybrid course with an option of attending in person (limited seating)

In short, HITEC 2022 will feature a detailed illustration of the optimal techniques to enhance endoscopic skills for the management of various luminal and pancreatico-biliary diseases, whilst concurrently introducing advanced and novel procedures/techniques to endoscopists, trainees, endoscopy nurses and technicians from around the world. We look forward to your participation.
