

Inaugural Endometrial Cancer Symposium:

How Preventive and Precision-Based Approaches
will Improve Patient Outcomes

JULY 29-30, 2022

HYBRID: IN-PERSON/VIRTUAL

CHEVY CHASE CONFERENCE CENTER

THE JOHNS HOPKINS HOSPITAL | BALTIMORE, MD USA

ACCREDITATION STATEMENT: The Johns Hopkins School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

CREDIT DESIGNATION STATEMENT: The Johns Hopkins University School of Medicine designates this live activity for a maximum of 13.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

- Identify why endometrial cancer is one of the fastest growing cancers in women, risk factors for the disease, and strategies for prevention.
- Discuss the role and importance of molecular/genomic testing in endometrial cancer to identify actionable mutations that can be targeted with novel therapies.
- Appraise the role of surgery, chemotherapy, radiation and immunotherapy in treating endometrial cancer.
- Discover novel study designs for implementing clinical trials in patients with rare endometrial cancers.
