TOPICS in CLINICAL MEDICINE

May 4 – 6, 2022

DESCRIPTION

Topics in Clinical Medicine began over 60 years ago with the late Dr. Philip Tumulty's belief that faculty should communicate not only its expertise in internal medicine, but also its collegiality and warmth. The current course directors are Drs. Gail Berkenblit, Daniel Brotman, and Kimberly Peairs. In 2022, Topics remains a course dedicated to providing the best summaries of the advances in internal medicine and extending the hospitality of Johns Hopkins' faculty.

- Describe innovations in medications and procedures that are applicable to a general medicine practice.
- Review updates and clinical practice strategies in the areas of general internal medicine, cardiology, endocrinology, gastroenterology, hematology/oncology, infectious diseases, nephrology, pulmonology, psychiatry, and rheumatology.
