## Who Should Attend:

This course is designed for practicing otolaryngologists – head and neck surgeons, nurses, speech-language pathologists and audiologists. Some course lectures will also be intended for facial plastic surgeons, endocrine surgeons, neurosurgeons, and pediatricians.

## Description:

Changes in otolaryngology-head and neck surgery are occurring at a rapid pace, including advances in transoral robotic surgery, endoscopic skull base surgery, diagnosis and treatment of patients with head and neck cancer, and the assessment and treatment of hearing loss. The goal of this course is to provide health care practitioners with a comprehensive update on current practices in all fields of otolaryngology-head and neck surgery.
