DESCRIPTION

Topics in Clinical Medicine began 64 years ago with Dr. Philip Tumulty's belief that Johns Hopkins faculty should share their expertise and enthusiasm for clinical medicine in a collegial environment. Held at the Johns Hopkins Medical campus, this course facilitates interactions between world class speakers and participants, including multiple Meet the Professor sessions. In 2019, "Topics" remains a course dedicated to providing the best summaries of the advances in medicine and their practical uses in daily clinical care.
