May 3-5, 2023

INTERNET LIVE  
CONFERENCE

## DESCRIPTION

Topics in Clinical Medicine began 67 years ago with Dr. Philip Tumulty's belief that Johns Hopkins faculty should share their expertise and enthusiasm for clinical medicine in a collegial environment. This course facilitates interactions between world class speakers and participants, including multiple Meet the Professor sessions. In 2023, "Topics" remains a course dedicated to providing the best summaries of the advances in medicine and their practical uses in daily clinical care.
